

Web Development Module 18

The Big Picture

Boot Camp Pointers

If you're having trouble with installs, remember that Office Hours are a great place to check in.

This Week: NoSQL

This Week: NoSQL

By the end of this week, you'll be able to:

Explain the difference between SQL and NoSQL

Configure Heroku for deployment of a Node.js application using MongoDB

Explain and execute CRUD methods with MongoDB

Integrate Mongoose in a full-stack web application

Create query builders to populate documents using refs

Implement client-side NoSQL using IndexedDB

This Week's Assignment

How will you use this module's content in your next assignment?

Career Connection

How will you use this module's content in your career?

How to Succeed This Week

Quick Tip for Success:

Some of this week's new skills have a steeper learning curve. Lean on documentation and your support system while you learn something new and challenging!

Today's Agenda:

Which skills will you learn today?

Make sure that you've downloaded the relevant class files!
