

The Big Picture

Boot Camp Pointers

If you're struggling with this module, remember that you have the following resources to help you:

This Week: Object-Oriented Programming (OOP)

This Week: Object-Oriented Programming (OOP)

By the end of this week, you'll be able to:

Integrate constructor functions into applications.

Build entire applications using OOP.

Verify that your code works as intended by using automated tests.

Build applications using TDD.

Use ES6 syntax to implement more advanced OOP patterns.

Create scalable applications that follow the OOP paradigm.

This Week's Assignment

How will you use this module's content in your next assignment?

Career Connection

How will you use this module's content in your career?

How to Succeed This Week

Quick Tip for Success:

This module is concept-heavy. It's okay if you don't understand something the first or second time it is introduced. Repetition is key!

Today's Agenda:

Which skills will you learn today?

Make sure that you've downloaded the relevant class files!
