State

Web Development

Module 22

The Big Picture

Phase 2: Technical
Node.js
OOP
Express.js
SQL
ORM
MVC

Phase 1: Foundation
HTML, CSS, and Git
Advanced CSS
JavaScript
Web APIs
Third Party APIs
Server-Side APIs

Phase 3: Performance
Computer Science
NoSQL
PWAs
React
MERN
State

Boot Camp Pointer:

As you enter the last few weeks of the course, don't forget to add your classmates on LinkedIn. As developers, it's important to have a network. Luckily, you've been building one this whole time!

This Week:
State

This Week: State

By the end of this week, you'll be able to:

Explain and identify use cases for global state management

Use the Context API and React Hooks to manage Redux-like global state

Implement the Stripe payment platform in a MERN application

This Week's Assignment

How will you use this module's content in your next assignment?

Career Connection

How will you use this module's content in your career?

How to Succeed This Week

Tips for Success: State

As you work through this week's content, remember the following:

01

This week's content is lighter than the previous two weeks.

Take advantage of this opportunity to catch your breath before you start your final project.

02

The two topics covered this week—global state and e-commerce—are very marketable skills.

Adding these to your final project is an easy way to help it really stand out!

03

There are many ways to implement global state. Redux is the industry standard, but the Context API is gaining in popularity. Focus on learning the concepts behind global state.

Today's Agenda:
Which skills will you learn today?

Make sure that you've downloaded the relevant class files!
